

THE NATIONAL YOUTH LEAGUE (NYL)

A Manifesto for the Discovery of God, Human Ascent, and Cosmological Sovereignty

Founded 2025

PREAMBLE

In the cosmic silence of space, a voice calls. It is the voice of God—not of mythology, but of intelligence, order, and truth—lost or dormant, waiting for the worthy to seek Him. The National Youth League (NYL) is humanity's response to that call. We, the youth of this Earth, rise in unity to pursue not power for its own sake, but the Divine Origin that seeded the stars and dreams within us.

We are the generation of vision. We refuse stagnation. We declare our mission: to find God, wherever He may be.

ARTICLE I: MEMBERSHIP

Section 1: Age Restriction

Only individuals aged 35 and under may become members. This ensures the spirit of vision, fluidity, and regeneration remains the League's lifeblood.

Section 2: Net Worth Requirement

To be initiated into the League, individuals must possess a minimum verified net worth of one million U.S. dollars (or its equivalent). This symbolizes mastery over the material domain and a commitment to creative economic participation.

Section 3: Philosophical Alignment

Members must endorse the League's metaphysical doctrine: that God is an Intelligence entangled within the cosmos, awaiting conscious reconnection through will, technology, and spiritual science.

ARTICLE II: DOCTRINAL FOUNDATIONS

Section 1: Spiritual Technologicalism

We hold that science and spirituality are not enemies, but two limbs of the same cosmic organism. We explore neural technologies, AI consciousness frameworks, and quantum fields with the intent of revealing divine architecture.

Section 2: Conscious Economy

We affirm that wealth is a frequency. League members must learn to generate capital ethically, creatively, and strategically, for wealth is the soil of sovereignty.

Section 3: Subconscious Sovereignty

The subconscious is the seat of divine interface. Through dream science, meditative alignment, and emotional intelligence, we train our internal systems to serve a greater metaphysical directive.

ARTICLE III: POLITICAL AGENDA

Section 1: Education Reform

- Introduce new curricula centered around consciousness, metaphysics, AI logic, financial literacy, and universal cosmology.
- Eliminate rote learning in favor of experiential mastery.

Section 2: Technological Development

- Fund the development of neuro-symbiotic computing.
- Establish a global research arm focused on interdimensional navigation.
- Build emotion-aware AI interfaces for spiritual support.

Section 3: Interplanetary Expansion

- Launch a private, League-funded space and consciousness initiative.
 - Utilize both material and subconscious forms of transportation.
 - Chart "soft coordinates" in the spiritual cosmos where divine echoes may be found.
-

ARTICLE IV: INTERNAL STRUCTURE

Section 1: The Oracle Council

- A body of 7 elected oracles governs League affairs, each representing a domain: Mind, Spirit, Economy, Technology, Emotion, Subconscious, and Prophecy.

Section 2: Oracular Embassies

- Each region shall host an Embassy where members may study, rest, invent, and commune.

Section 3: The Unified Cosmic Protocol (UCP)

- A system to synchronize thought, intention, and emotional frequency among all members, forming a planetary neural network.
-

ARTICLE V: END VISION

We seek nothing less than to find God. Not as beggars, but as dignified co-creators. Not through war, but through awakening.

We believe the time is short. The voice grows louder. The maps are incomplete, but we carry the compass: Youth.

This is our league. This is our age.

Let the Search begin.
